Proud to be part of city

By Wells Journal

Thursday, September 19, 2013

FOLLOW

FIRSTLY can I say how overwhelmed we've been by the reception we have received from people in Wells and we are already feeling very much part of the community.

Since opening, we have launched our Community Matters green token scheme and Partner Volunteering initiative which will see us donate £12,000 and 250 [employee](#) hours respectively to local causes every year. This month we are supporting Mendip Citizens Advice Bureau, Somerset Cancer Care and Mendip Branch Multiple Sclerosis Society.

We always try to ensure our [customers](#) have a good shopping experience with us and that starts with their journey to the store. We introduced the "smart" MOVA traffic lights in conjunction with the large long stay public car park so are pleased to hear that fears of traffic congestion and a negative impact on local shops have not been experienced.

As a company that is owned by its [employees](#), we take a long-term view and only open shops in areas where we believe we can trade sustainably and I am pleased to say Waitrose in Wells is exceeding our expectations each week.

We're proud to be part of Wells and are looking forward to making a positive contribution to the city for many years to come.
